WE'RE FOR AMERICA#AMERICANS!

NO DEVELOPMENT in the busines the recent announcement by a lead ing commercial agency that the sales of goods in April were within a small frac tion of the amount in the most prosper ons business year which the country has seen for a long time. That there is a genuine revival in business activity is apparent, not aione from this annonncement but from the statements of the press, irrespective of party, in every section of the country.

THE return of the Republican party to power in the United States has been the signal for renewed activity on the part of the South American Republica in favor of closer commercial relation with the United States. They know that Republican methods increased the trade with us, and that the return of the Republican party to the control o the Government warrants their sending a delegation of their leading merchants and business men to encourage close trade relations.

THAT the pending Tariff Bill is es pecially satisfactory to the farmer is hown by the cio-ing sentence of an article in The Minneapolis Tribune, whose editors have especial facilities for test ing the sentiment of the agricultural sees of the country. The sentence in question says: "There is one thing cor tain; the Western farmers will not have any cause to complain that the bill was constructed in the interests of Eastern manufacturers and capitalists as opposed to their own: it is the most favor at ie Tariff Bili to farmers ever framed.

WHILE the great majority of th eriminating duty policy for the protection of American shipping in the for eign trade, there has been opposition to the policy, nevertheiess. The opposition was confined to a very few people, how ever, and the latest information indies that this has disappeared. It not looks as though there would be a com mon understanding among ail Amer cans in behalf of the discriminating dnty policy, and the opposition will b feit and shown by the foreign shipping interests aione.

A MASS MEETING!

In the Interest of the New Railroad to be Held in Maysville on the 27th.

Colonel Albert E. Boone, Promoter and General Manager of the Black Diamond System of Railways, of which the Maysville, Kentucky and Western Railroad is to be a section, has issued the following circular to the Mayor and the citizens of Maysville:

THE BLACK DIAMOND TRUNK LINE

THROUGH THE "SOUTHLAND,"

FNERAL OFFICES, KNOXVILLE, TENN. ALBERT E. BOONE, GENERAL MANAGER.

Its my purpose, as the Promoter of the Black Diamond System of Railways, to pass through your place with one of its lines. To the end that all can work as one, a grand Railroad Mass Meeting has been called for conference to convene at

MAYSVILLE, KY., THURSDAY, MAY 27th, 1897, AT 2 P. M.

The people of the county of Knox, state of Tennessee, of which Knox-ville is the county seat, have pledged a subsidy of 8500,000 for the Black Dia-mond outlet from Knoxville, Tenn., to the Ohio river, and a like sum of 8500,000 for the Black Diamond outlet to the sea.

Anyone familiar with railroad construction will tell you that such a subsidy, backed by a free right of way, insures the early building of every line of the Black Diamond System of Railways that can be got ready for construction, backed by a free right of way.

I would be gratified to see a strong delegation from your place and county. It will be the grandest railroad demonstration ever made, because it is a movement of the people to cut the Gordian knot of high freight rates, as well as to rapidly advance the upbuilding of the cities, towns and villages as well as to rapidly advance the uponulong of the crues, fowns and viniges along the lines traversed by the Black Diamond, by concentrating all energies toward local traffic instead of through service. The latter does not help sustain or profit any community. Every through passenger train anys the life of your section in the interest of the large cities that have no interest in common with its welfare. The policy of the Black Diamond will be just the opposite of other trunk lines; it will work its railways solely in the interest of the people along its lines.

A strong delegation from Knox county, Tenn., have signified their will-ingness to be present to attest their fealty to the Black Diamond cause, and faith in the projector, who is at the helm solely in the interest of the people

Enjoying the hope that you will call a meeting of your people, to the end that your section will be duly represented, I am with respect,

ALBERT E. BOONE.

THE STRONGEST TESTIMONIAL OF THEM ALL.

Colonel M. C. Russell has kindly handed THE LEDGER
a letter from Mr. M. L. Ross, head of the Wholesale Grocery
firm of M. L. Ross & Co., Knoxville, which speaks for itself.

It may be stated that Mr. Ross has a commercial rating

from \$250,000 to \$300,000;—and that people who are so rated

KNONVILLE, TENN., May 21st, 1897.

Colonel M. C. Russell, Chairman Raifroad Committee,
Maysville, Ky.—My Dear Sir: It is with much pleasure that
I learn that you are to have a great mass meeting of your people in the interest of the Black Diamond System of Railways,
including a line of same from Columbus, O., via West Union
to Aberdeen, O., opposite your city, thence Southward via
Jellico and Knoxville to the sea.

President of the Knoxville Junction

Jellico and Knoxville to the sea.

For myself, as President of the Knoxville Junction Terminal and Belt Line Railway Company and of the Ohio River, Knoxville and Tidewater Railway Company,—and I am sure I voice the sentiment of the people of my county and section,—I wish to say that we trust your community will boil over with enthusiasm in behalf of this enterprise. In my view our interests in the accomplishment of this great work are identical, and this system of roads is absolutely essential to the development of our inexhaustible mineral resources. The prospect for a return of confidence and consequent prosperity is bright, and the day of emancipation from the bondage of high rates is dawning upon the South.

Rally your people and join us in one mighty effort to

to the Atlantic Ocean.

And further I learn that Colonel Albert E. Boone, the promoter and General Manager of the system, is to be with you. After a personal acquaintance of more than two years with the Colonel I can most heartily indorse him as better fitted to carry such an enterprise to a successful issue than any other man within my knowledge. As a member of the Board of Directors of the Knoxville junction Terminal and Belt Line Railway Company and of the Ohio River, Knoxville and Tidewater Railway Company, I have been intimately associated with the Colonel in the management, and know him to be a man of unquestionable integrity, untiring energy, matchless ability and master of his profession in the promotion and building of railways, and if given reasonable support you can rest assured he will carry out, in the strictest good faith, any fledges he may make your people. Nine-tenths of our city and county people voted him a subsidy to secure the survey and rights-of-your through the county, and at the proper time will vote as favorably for a large construction subsidy.

Be assured of our sympathy with the object of your meeting and of our hearty co-operation with you in the promotion and construction of the road, as well as of our hearty indorsement of Colonel Albert E. Boone.

Most respectfully,
M. L. Ross, President.

out of the chaotic condition caused by the multiplicity of correspondence—no fewer than forty letters all demanding immediate attention on set days—and the office cat two hundred miles away!

It will be recalled that at the public meeting held in this city a few weeks ago a Committee of Fitteen was appointed by Chairman M. C. Russell, with a view to cooperating with Colonal Boone in his project for a railway line to use from this city to Louisrille, via Mt. Boone in his project for a railway line to run from this city to Loudwille, ei akt. On the same date Colonel Boone sent the following letter to The Lenders:

ZAREWILLE, O., May 20th, 1897.

Editor Ladger: Never in my life was 1 more astonished than today when I read the letter of Colonel M. G. Russell as to the opinion of six of the c.mm tiee, who have decided that it is no use even to make an effort, and suggesting the ran-celling of the Calling of the Railroad Convention.

In this latter matter Colonel Russell is mittaken, necame it is a convention of

Convention

In this latter matter Colonel Russell is mistaken, necause it is a convention of all the people anxious to see the Black Diamond constructed. Of course, Mays wille deciding before the convention meets that she will not even make an effort to secure the crossing of the Black Diamond lines at the Ohio River, may have a dampening effect upon the spirits of some of the designets; yet, when they have a dampening effect upon the spirits of some of the designets; yet, when they will and expense of terminals, would the till you of the Ohio River, with a bridge at Mays wills and expense of terminals, would the thinly 800,000 more than the cheepest location, they will undoubtedly feel that that which will be Mayswille's loss will be the gainer to the road after its construction, by keeping fully one half million of foliars in the treasury of the Construction Company, if upon it the treasury of the road tlatef.

What got into that Committee? In all my life I sever met a more instelligent set of mee, or men who fraskly gave their Judgment that the proportion was all a fraction cannot help but at eit in, otherwise a great and serious mistake has heen made. For generations to come there will be a deer regret that the Black Diamond did not cross the Ohio River at Maysville.

This is the first time in my life I believe

there will one uccess the Ohlo River at Mayaville.

This is the first time in my life I believe I failed to get the people to act. Occurse I cast to control the action of the Committee, if they refuse to report back to their convention for lastructions. They certainly should have waited to see what the people who will come to Mayaville frem all along the line of the Black between the control of the control o

Committee of Fifteen. Now suppose their judgment is mitaken as to the temper of the peopls for more railroads, and the Black Diamond crosses at Dower or Au gusts—then what?

Not a dollar has as yet been put up outside of the city of Knoxvilla and Knox nounty, Tenn., for the Black Diamond cause, and tinse may yet prove again that "The Lord only belps those who help themselves." Truly yours, Alessant B. Boorn.

Among other testimonials of confidence in Colonel Boone and his enterprise is that of Hon. J. L. Tribbie, of Tribbie & Prince, Lawyers, Anderson, S. C. Mr Tribble is the gentieman who for a Com-mittee tendared Colonal Boone \$1,500,000 worth of work that had been done in the mountains of Georgia and South Carothe Black Diamond lines. Mr. Tribble writes as follows:
